TO WHOM IT MAY CONCERN:

We recently completed a substantial renovation project for our new offices in Montreal which necessitated a complete demolition and reconstruction of an entire floor. The general contractor for the project was Marfoggia Construction, under the supervision of Mr. Mark Marfoggia, Vice President, who also provided millshop work to a very high and exacting standard.

Mr. Marfoggia was very active in the project ensuring that all the sub-contractors and suppliers, based both locally and outside Canada, were always correctly scheduled and coordinated and kept aware of any potential issues that could affect the delivery of the project. Mr. Marfoggia took care of any issues that arose during the construction period with the added attitude, "Let's get it done right!".

Mr. Marfoggia managed the entire project with great professionalism and efficiency. We are happy to highly recommend Marfoggia Construction for any renovation project.

Should you have any further questions, please do not hesitate to contact W. Ken Couser at 514-350-6241.

Sincerely yours,

Jean-François SAUVÉ
President
