“Working with Marfaglia was a remarkable experience. Their team was very efficient and capable of navigating through a tight schedule while also exceeding our exacting specifications for this design driven project. In collaboration with Marfaglia we were able to push and refine our ideas throughout the project and come up with solutions that improved the space while adhering to our timeline and pre-determined budget. We appreciated Marfaglia's flexibility and enthusiasm as well as their genuine concern for the end quality of the product. We deeply appreciate their efforts and we would not hesitate to work with them again.”

Re: Shopify Montréal

Mark,

I would like to express our thanks for Marfoggia Construction's level of professionalism and close collaboration during the successful execution of our Shopify Montréal project. You and your team worked hard to accommodate our construction processes and even harder to deliver a high quality project for our client. I felt fortunate to have access to your team and to consider them partners in the execution of our collective work.

I would also like to make special note of the exceptional quality and professionalism of your millwork shop. Your draftspersons, millwork management, millworkers and installers obviously take great pride in their work. It was a unique benefit to have your shop produce the millwork for a project that your team was also managing. Your team was flexible on finding the appropriate price point and value, and millwork integration on site was near flawless.

I look forward to working with Marfoggia Construction again.

Best regards,

Christopher Alderson
Senior Project Manager,
The Lake Partnership, Inc.
