

Dear Michael,

We would like to take this moment to thank you and your team at Marfoggia Construction for the excellent work and project management focus that ensured our Montreal office project was a great success.

Beginning with a tight schedule, the achievement of the project was further challenged by the extensive floor leveling required to properly accommodate our selected finishes. Each issue seemed to have a ripple effect through the various subcontractors involved, but your level of management engagement, and your ability to bring these issues to the table rapidly, kept us on schedule and on budget.

You made our innovative lighting designs and curved walls come to life. Your custom millwork and attention to detail during installation has provided us with a superior, enjoyable working environment.

We believe we made a sound decision trusting Marfoggia with the realisation of our office concept and would not hesitate to recommend you to others looking for quality and professionalism.

Best regards,

Sophia Hassar
