

Area: 128,000 sq. ft.

Mandate: General Contractor

Category: Legacy

Schedule: 3 months construction followed by 3 months waiting period x 4 phases
(2006-2008)

MARFOGLIA

"This was a very complex and tightly scheduled project of approximately 128,000 square feet and we knew from the beginning that only a competent firm such as yours would be capable of doing the job. As with any project this size, this one had too many "change orders" during the construction period. Again, your team and you personally always responded promptly and very often provided us with cost saving suggestions. Strong, direct, corporate involvement was demanding as well, yet your ability to listen to our needs made the communication process very easy."

- Grace Bielec, Director, Enterprise Support Services, Ernst & Young
